Setting Up

Connect the DVD player power plug to a wall outlet. The power indicator and timer on the front panel will illuminate.

Follow one of the steps below for connecting your DVD player:

Connecting Via RCA Cable

Connect a RCA cable between the 2 channel Audio Output port and the RCA input on your TV.

Connecting via HDMI

Connect a HDMI cable between the HDMI Output on the back panel of the DVD player (**Ref.50**) to the HDMI input on your TV.

Connecting via Component (Y Pb/Cb Pr/Cr) Cable

Connect a (Y Pb/Cb Pr/Cr) cable via the (Y/Cb/Pb Cr/Pr) Output of the DVD player (**Ref.48**) to your TV (R/L/Video port and cable).

Programme Button

If the disc has two or more tracks, chapters, or titles, you can set up playing order preference. Press the button to then input the number of the track, title or chapter. If the programmed tracks are over 10, press 'Next' to go on programming. Use the up/down/left/right key to move the cursor to 'Start'. Press 'Enter' to start programmed play. With MP3 discs, press the button to enter 'Directory-Play' mode. Press 'Programme' again to enter file-list mode.

The following DVD formats can be played: DVD, DVD-R-RW, CD Video, Mpeg4.

1. Ensure that your TV is set to the correct mode for DVD playback.
2. Plug in the DVD player and press the 'Power' button to turn the unit on. You can do this on the unit (**Ref.47**) or via the remote (**Ref.1**).

When the machine is switched on, pressing the POWER button on the remote control will make it go into standby mode. Press the button again and the machine will switch on.

WARNING: If the product will not be used for an extended period of time, it is advisable to unplug it for safety.

3. Press the Open/Close button on the front panel (**Ref.44**) or on the remote control (**Ref.20**) and place a DVD disc on the disc tray. Press the Open/Close button again to close the tray.
4. The DVD player will read the DVD disc and begin playing. You can control the playback and settings via the remote control.

This device has a USB port in the front interface for MP3/Movie playback.

Insert a USB device into the USB port (**Ref.43**).

Press the DVD/USB button on the remote control (**Ref.4**) and select 'USB' to switch the source to USB. The DVD player will read and display the file list from the USB drive.

Browse through the file list by pressing the ▲/▼/◀/▶ buttons (**Ref. 7, 24, 25, 28**) on the remote control. Select a file by pressing the Enter button (**Ref.26**) of the remote control.

Playing MP3 Discs

The following formats can be played: Mp3, WMA, CD Audio, CD-R-RW, CD

Whilst a MP3 disc is playing, a menu screen will display on the TV. Press the ▲/▼ buttons (**Ref.24**)/(**Ref.28**) to scroll through tracks or folders. Press the ENTER button to select the track or folder.

Press the PROG button in file play mode. The screen will then display the total track number and the current track playing. Use the digit buttons (**Ref.21**) to key in and select the track or use the ▲/▼/◀/▶ buttons to shift to the track and press the ENTER button (**Ref.26**) to play the track.

The following formats can be played: Jpg, Jpeg, CD Photo

Press the STOP button and 12 small pictures will show on the TV screen.

Press the ▲/▼/◀/▶ buttons to select the desired picture to view. **(Ref.7), (Ref.24), (Ref.25), (Ref.28).**

To access the instructions menu, use the ▲/▼/◀/▶ buttons to navigate and then press the ENTER button to confirm. The following options will display:

1. PROG - Select to change picture transform mode
2. STOP - Entering picture preview mode
3. PREV - Previous picture
4. NEXT - Next picture
5. PLAY - Play picture
6. UP - Mirror image in vertical
7. DOWN - Mirror image in horizontal
8. LEFT - Rotate 90 degrees anticlockwise
9. RIGHT - Rotate 90 degrees clockwise
10. ZOOM - Change zoom mode
11. FAST FORWARD - Zoom in the picture
12. FAST REWIND - Zoom out the picture
13. ▲/▼/◀/▶ - Move zoom focus for picture.

MENU OPERATION

Press the SET-UP button (**Ref.8**) on the remote control and the SET-UP menu will display.

The menu options are as follows:

Menu 1: System Setup

Menu 2: Language Setup

Menu 3: Audio Setup

Menu 4: Video Setup

Menu 5: Speaker Setup

Menu 6: Dolby Digital Setup

After accessing the SET-UP menu, press the ▲/▼/◀/▶ buttons (**Ref.7**), (**Ref.24**), (**Ref.25**), (**Ref.28**) to access your chosen sub-menu. Press the ENTER button to confirm your selection.

To end the set-up, press the SET-UP button again.

Follow the guidance on the next pages for editing these settings.

MENU 1: SYSTEM SETUP

TV System (NTSC/PAL 60/PAL/AUTO): This unit is suitable for all makes for TV's. You can select PAL or NTSC if necessary. PAL must be selected for use in Europe.

Auto Play: Turn Auto Play On/Off.

Video: Select between Interlace-YUV and P-Scan YPBPR video output.

Resolution: Select resolution levels from the HDMI output: 480 I/576I, 480P/576P, 720P, 1080I, 1080P

TV Type: Different values will be displayed here depending on your TV set. In most cases you will be able to select from 4:3/PS (Pan and Scan), 4:3/LB (Letterbox), and 16:9 (best for widescreen TV sets).

Password: The initial factory password is 0000. You can change the password here.
