Charging

The unit will charge in standby and working mode if it is connected to the mains with the supplied power adaptor. To confirm that the unit is on charge, the charging icon (at the top right of the screen) will indicate the unit is charging and the level of charge. The charging port will also display a red light to indicate charging.

The speaker will take approximately 4 hours to fully charge, when fully charged the charging port will display a green light.

Play Time

The P300 has an internal rechargeable battery that has a playtime of 8 hours when fully charged. This will allow you to remove the power adaptor and take the speaker on the go and use it portably.

Remote Control Power

Remove the battery cover of the remote control. Insert 2 x AAA batteries (included). Replace battery cover.

Note: When using the remote control, ensure that you are pointing at the remote sensor, otherwise the unit may not respond.

Basic Controls

On the remote control or top panel of the speaker, use the **Vol+** & **Vol-** buttons or volume dial to control the volume.

Press **MUTE** to mute the audio.

In Bluetooth or USB mode, use the ◄◄ ►► buttons to skip tracks and rewind or fast forward.

Switching Mode

Select the correct mode using the **MODE** option button on the remote control or top panel of the speaker.

The mode selected is indicated on the LED display on the front of the main speaker:

- **AUX**
- **Bluetooth**
- **FM**

Bluetooth
To choose Bluetooth Mode, press the **MODE** button on the remote or top panel until Bluetooth Mode is selected.

Go to the Bluetooth settings on your chosen device and ensure Bluetooth is switched on. Locate "Majority P300" in your available devices and select the device to connect. Once connected, the voice prompt will confirm 'Bluetooth Connected'.

To choose the music you wish to play, you will need to choose the song, album or playlist from your device.

Note: The speaker only receives Bluetooth input from certain devices such as a phones or tablets.

USB
To choose USB Mode, press the **MODE** button on the remote or top panel until USB Mode is selected.

Insert a USB stick/drive into the USB port and use the remote control functions to play, pause and navigate through files.

Note: The USB port cannot be used as a connection port with other devices. This port is only to be used for playback from a USB stick or recording.

SD Card
To choose SD Card Mode, press the **MODE** button on the remote or top panel until SD Card Mode is selected.

Insert an SD Card into the SD port and use the remote control functions to play, pause and navigate through files.

FM Radio

To choose FM Mode, press the **MODE** button on the remote or top panel until FM Radio Mode is selected.

Playback will autoplay the last played station. Press **Play/Pause** button on the remote control or top panel to auto-scan. The device will then auto-scan for a confirmed FM signal and save the station as preset 1-9. When complete, the device will then play preset 1. Use the preset buttons on the remote control, or next/previous track/scan to choose between preset stations.

Microphone

Plug in the supplied wired microphone and the speaker will automatically recognise the connection. Ensure the microphone is switched to **ON**.

Control the volume and echo of the microphone via the controls on the speaker's top panel. The LED display will show the volume and echo level selected.

The microphone audio works independently of the main speaker audio, so the microphone can be used with any playback mode.

Recording Controls

The record function is used to record the audio from the microphone when the wired mic is connected. It records to USB or SD card, so either of these ports needs to have a USB stick or SD card connected with free space to save recordings. The recording saves in .mp3 format and a maximum of 4GB file size can be saved.

Note: The recording only save the audio from the microphone and not any audio played through other playback options.

To activate a recording, press the **REC** button on the remote control or top panel of the speaker and the recording will start.

To stop the recording, press the **REC** button again.

To play a saved recording, press the **REC PLAY** button on the remote control.

Observation	Potential Cause/Solution
No Power/Function	Check whether the power is switched on or off at the wall. Check that the power adaptor is properly connected to the power outlet.
No Sound	Check whether unit is set to MUTE. Check whether MODE is correctly selected. Turn up the volume on the speakers or on your external device. Check that cables are properly installed.
Function disturbance	Switch off and unplug the unit. Leave it for 2 minutes and switch it on again.
Bluetooth not connecting	Ensure that you are on Bluetooth mode on the speaker and the Bluetooth on your device is switched on. Select the Bluetooth device 'Majority P300' and you should now be able to play audio.
