Support

Thank you for your purchase of the Majority Snowdon II.

Please follow the guidance of the manual to set up your soundbar and enjoy its fantastic features.

If you require further assistance with your new soundbar, please contact our support team on the Majority website: https://www.majority.co.uk/support

Instructions Guide

Fixing the Soundbar

Ensure the TV or Vision Device is placed properly.

Mode Indicator Lights

State	Indicator Lights
Power off	Red
Optical mode	Yellow
AUX mode	White
Line in mode	Green
Bluetooth ready	Flashing blue
Bluetooth connected	Blue

Audio Settings

Mode	Bass/Treble Functions
MUSIC	Manually change BASS and TRE settings between oDb and +8Db.
DIALOG	BASS+ BASS- TRE+ TRE- functions disabled
MOVIE	BASS+ BASS- TRE+ TRE- functions disabled
FLAT	Restore to default settings + manually change BASS and TRE settings between -8Db and +8Db.

Using the AUX Connection

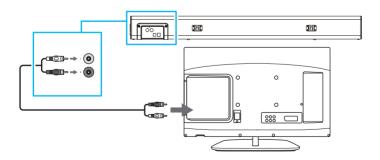

Use the RCA Stereo Audio Cable to connect the TV's stereo RCA(L/R) audio output socket to the AUX(L/R) Sockets of the unit.

Then press the INPUT button on the remote control (**Ref.21**) or press the Source button on the soundbar (**Ref.2**) to choose the AUX function.

Turn on your television set to use the Majority Snowdon II.

Troubleshooting: If you are not receiving a picture or encountering interference, please ensure that the RCA cable is being connected to 'output' RCA ports on your TV set. This will ensure that the sound is being exported correctly.

If your TV does not have 'output' RCA ports, please use an alternative connection method.

Using the Optical Input

You will need: An audio source with an Optical Audio Output and a Digital Optical Audio cable (not included)

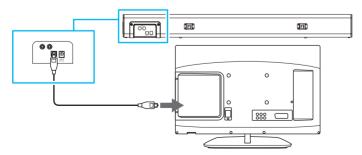

Connect the Digital Optical Audio cable to the optical output on the audio source and to the Optical Input on the speaker bar.

Press the POWER button on the side panel (**Ref.1**) or POWER button directly on the remote control (**Ref.11**) to switch on the unit.

Press the INPUT button on the remote control repeatedly (**Ref.21**) to switch to Optical mode or press the SOURCE button (**Ref.2**) repeatedly on the soundbar to select the Optical mode. The mode indicator LED will turn Yellow.

Using the native controls on your connected device, make sure the audio settings are set to PCM or Optical Audio and are turned On.

Audio from the connected audio source will now be played through the speakers.

Using the MP3 LINK Connection (Line In)

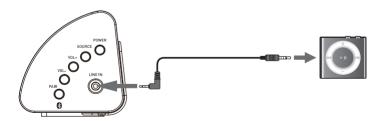

Plug one end of a 3.5mm audio input cable (included) into the Line in (**Ref.6**) on the unit. Before use, disconnect any cables connected to the Stereo RCA Inputs.

Plug the other end of the cable into the audio output/ headphone output on an MP3 player or other audio source.

Press the POWER button on side panel (**Ref.1**) or POWER button directly on the remote control (**Ref.11**) to switch on the unit.

Press the SOURCE button repeatedly on the soundbar (**Ref.2**) or press INPUT button on remote control (**Ref.21**) repeatedly until on LINE in mode. The mode indicator will turn green.

Audio played through the connected device will now be heard through the speakers.

Connecting to the Mains Supply

Ensure that the power supply voltage is in the voltage of 100V~240V.

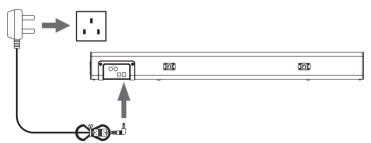

This unit is designed to use adapter.

Connecting the unit to any other power source may cause damage to the unit.

Unwind the mains cable to its full length. Connect the mains plug to a mains socket. Make sure the mains plug is fully inserted into the mains socket.

The mains plug/appliance coupler is used as the disconnect device, the disconnect device must remain readily operable.

Connect the Adapter into the soundbar AC Socket (Ref.3)

<u>_</u>!

Ensure all audio connections of the unit are connected before connecting to the mains power socket.

Unplug the power cord from the outlet when the unit is use for an extended period of time.

Bluetooth Operation

Pairing a Bluetooth Device for the First Time

Press the POWER button on the soundbar (**Ref.1**) or the POWER button on the remote control (**Ref.1**) to switch on the unit.

Press the INPUT button repeatedly on the remote control (**Ref.21**) or press the SOURCE button on the soundbar (**Ref.2**) repeatedly until in Bluetooth mode, indicated by a flashing blue light.

Using the native controls on your Bluetooth device, select the "Majority Snowdon II" in your Bluetooth settings to pair.

If your device requests a password, enter the default "0000". Refer to the "user manual" for your specific device for instructions on pairing and connecting Bluetooth devices.

When successfully paired and connected, a beep will issue from the unit and the Pairing Indicator will display a solid blue light. After initial pairing, the unit will stay paired unless unpaired manually by the user, or until it is erased due to a reset of the device.

If your device should become unpaired or you find it is unable to connect, repeat the above steps.

Playing Audio Wirelessly

Follow the instructions for Pairing a Bluetooth Device.

Use the native controls on the connected Bluetooth Device to select a track.

To play, pause or skip the selected track, use the native controls on the connected Bluetooth Device.

Audio played through the connected Bluetooth device will now be heard through the speakers.

If the Soundbar does not work properly as desired, please check the following checklist.

Malfunction	Possible causes/measures
No power/function	Check whether the power is switched on or off at the wall. Check whether the power adaptor is properly connected to power outlet or not.
No sound	Check whether unit is set to MUTE or not. Check whether MODE is correctly selected or not. Check whether cables are properly installed or not.
No sound from bluetooth connection	Check whether you have pressed PAIR button before pairing. Check whether external device requires password "0000" to start with.
Function disturbance	Switch off and unplug the unit. Leave for 2 minutes and switch it on again. If a particular mode is causing problems, please try an alternative connection to your TV such as Optical, AUX or Bluetooth.
Remote control does not work [properly]	Check whether the battery has run out or not. Replaces a new one if necessary. Check whether there is obstacle on the front of remote sensor or not.
No sound when connection and switches to OPTICAL IN mode	Check and ensures the audio setting of the input source (e.g. TV,game console,DVD player, etc.)is set to PCM mode while using digital connection (such as Optical,HDMI and COAXIAL)
