The 'music' setting is best suited for listening to music, 'film' is best suited for watching films, and 'news' is best suited for vocal audio such as news or speech.

For a richer, deeper room-filling sound, select 3D mode (**Ref.21**).

Bluetooth Mode

Select 'Bluetooth' mode manually by using the 'BT' button (**Ref.3**)/(**Ref.20**) or the 'Mode' button (**Ref.22**)/(**Ref.2**) until 'bt' is displayed on the Soundbar LED display (**Ref.1**). The LED display will flash to indicate that the soundbar is in Bluetooth pairing mode.

Switch Bluetooth on for your external device. Select 'Majority Saxon' from the list of devices.

When your external device is connected, the soundbar will make a short sound to indicate successful connection, and the LED display will no longer flash. You can now play audio through the soundbar.
